Domaine :

Présentation

Spécificités

The M2 ECL is delivered jointly by TSE and the Law Faculty of the Université Toulouse 1 - Capitole.

- M2 students in ECL may also simultaneously enrol in an M2 Law programme (Business Law) and thus automatically earn a Masters of Law upon successful completion of ECL M2 programme
- TSE boasts one of the world's best research group in industrial organisation.
- Students also draw support from several research centres, including :
 - GREMAQ : Research group in mathematical and quantitative economics
 - ARQADE : Research group in applied quantitative development economics
 - LERNA : Research group in natural resource economics
- The Master 2 ECL of TSE provides students with opportunities to secure a job in major competition policy enforcement agencies, economic consulting firms or Law administrations.
- The programme benefits from TSE affiliated research centres' strong ties with a network of large French and foreign firms (Competition Authorities, European Commission, EDF, France Télécom, La Poste, LECG, Deutsch Bahn, Microsoft, etc.) that provides students with a valuable window of job opportunities, as well as from law practitioners and legal consulting firms.
- The programme is competitive so that admitted students are given due attention.

Etablissements partenaires

TSE abrite l'un des meilleurs groupes de recherche en économie industrielle au monde.

Les étudiants bénéficient du soutien des équipes de recherche associées à TSE : le GREMAQ (INRA, CNRS, EHESS, UT1 Capitole), l'ARQADE (UT1 Capitole), le LERNA (INRA et UT1 Capitole).

Objectifs

Why is economics so important for Competition Law? What is the role of competition in a free market economy? Why are there rules to prevent firms (or State) from distorting competition?

Part of the "École d'Économie de Toulouse" (EET-TSE), the professional track of the Master 2 "Economics and Competition Law" (ECL) prepares students to answer this type of questions by drawing on state-of-the-art models and methods of economics and econometrics and rigorously applying them to the specific topic of Competition Law. Students are trained to model industrial relationships and to develop a strong capacity to analyse and understand the functioning of markets and the behaviour of market players, as well as to know and develop a rigorous Law analysis of
