

# Mastère Spécialisé Advanced Master in Aviation Safety Aircraft Airworthiness

Niveau d'étude  
visé  
BAC +6

Diplôme  
Mastère  
spécialisé

Domaine(s)  
d'étude  
Ingénierie  
aéronautique et  
spatiale

Accessible en  
Formation  
initiale, VAE

Établissements  
ISAE -  
SUPAERO

## Présentation

The Master in Aviation Safety - Aircraft Airworthiness covers both the technical aspects of certification and the legal and economic implications.

## Objectifs

The Advanced Master in Aviation Safety: Aircraft Airworthiness focuses on the challenges of navigability and safety in air transport by giving future managers a broad understanding of the issues and priorities in Airworthiness. It also focuses on air transport safety from design to operations within the international legal environment. This program covers both technical aspects of certification and the legal and economic implications.

It is a 1-year program fully taught in English, in partnership with ENAC and Ecole de l'Air.
