## Objectifs

**Semesters 1 and 2** aim at giving students a thorough knowledge of the private and public aspects of international and European legal issues.

The programme offers a comparative perspective, focuses on methodology with a view to providing the students with the tools needed to hold positions as lawyers in an international and European context.

**Semesters 3 and 4** aim at giving students a thorough knowledge of international economic legal issues. According to the French grading system, the master's degree is a national

diploma recognised in the European Union countries and which is equivalent to a Legum Magister (LLM).

The program focuses mainly on the study of the World Trade Organization, of the European Union in an economic perspective and of international economic development.
